Motion for Injunctive relief

Honorable Chief District Judge Ann Aiken,

I am submitting a motion requesting the Court to provide injunctive relief and prevent Oregon Health and Science University School of Medicine from unlawful termination of my education and employment in the Child neurology residency training program in retaliation for engaging in federally protected activities, namely making a complaint to the internal Affirmative Action division of OHSU in November 2012 and submitting a complaint to the federal Equal Employment Opportunity Commission on February 4, 2013.

Sincerely,

Kumar Naharaja
